Numerical and experimental study of an improved method for prediction of snow melting and snow sliding from photovoltaic panels

Ali Rahmatmand, Stephen J. Harrison, Patrick H. Oosthuizen

PII: S1359-4311(19)30527-7
DOI: <https://doi.org/10.1016/j.applthermaleng.2019.113773>
Article Number: 113773
Reference: ATE 113773

To appear in: *Applied Thermal Engineering*

Received Date: 22 January 2019
Revised Date: 10 April 2019
Accepted Date: 13 May 2019

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
