Student researchers will be at their posters
available to discuss their work

Posters will be available for viewing in
Stauffer Library from November 2th to 8th

About the Queen's University Undergraduate Student Summer Research Fellowship:

The Undergraduate Student Summer Research Fellowship is an opportunity offered by Queen's University in collaboration with the Bader International Study Centre.

Under the guidance of a faculty researcher, continuing undergraduate students engage in a social sciences, humanities, concurrent education, or creative arts project over the course of the summer.

The program provides students with meaningful opportunities to engage in discovery-based learning, and to develop research and presentation skills.
