

MAZO DE LA ROCHE COLLECTION 1977

This list was typed from very old cards with poor handwriting in Jan. 1994. Numbers are for the the books FOUND to match these cards. If there is not a number beside the list this means that NO books were found in 1994 to match the cards that were typed. Some of the spelling of the words from another language is guess work. Some of the titles have a location when I checked them on the computer so I guess that is where the books are housed in 1994. Dianne Cook does not think we kept the books with question marks.
